

# LAB Collection and Testing For CONGENITAL Cytomegalovirus for PARENTS

# CMV

Your infant meets criteria for Utah mandated congenital CMV testing by either:  
*not passing his/her (first) hearing screening at 14 days of age or older*  
OR  
*not passing BOTH their first hearing screening AND their second (re-)screening.*

1. A test sample will need to be collected **BEFORE your baby is 21 days old:**

Acceptable

Acceptable

**2 hours or more after feeding**

NOT

UNacceptable

Either of these samples may be taken at your provider's office or at the lab.  
Please call your baby's doctor to find out where you should go.  
**Take this sheet with you when you have the sample collected.**

If a saliva sample is taken, the inside of your baby's cheek will be swabbed: this must be done  
120 minutes after their last feeding as CMV could be present in breastmilk.

2. **CMV Detection by PCR** CPT code **87496** (qualitative - preferred) or CPT code 84797 (quantitative) should be conducted.

3. Results should be sent to your baby's requesting physician **AND** to the  
**Utah Dept. of Health CMV Fax: 801-584-8492**

If you have any questions, please call the Utah Dept. of Health at (801) 584-8215

\*The saliva must be collected by using an ORAcollect-100 kit available from ARUP supply #49295.
