Mental Health Benefits

If you live in Wasatch County, you can use Wasatch County Family Clinic or any mental health Medicaid provider.

In every other county, you must use the Prepaid Mental Health Plan (PMHP) in your area. Contact an HPR for more information.

Dental Benefits

Medicaid members receive dental benefits up to age 21. After you are 21, you will only have limited emergency dental benefits.

Finding a Medicaid Dentist

The Family Dental Plan (FDP) offers dental services for Medicaid members over the age of 21 who no longer has dental coverage. The services available are the same as Medicaid services. The patient must pay for the dental care at the time of service by cash or check with the proper identification. FDP charges the same rate Medicaid would pay so it costs less than other dentists.
