Injuries and violence can have a dramatic impact on a person’s ability to lead an active, fulfilling life.

Every day in Utah,
- 5 people die from injury or violence
- 34 people are hospitalized due to injury or violence
- 420 people are treated in an emergency department due to injury or violence.

**Injuries Deaths**

In 2013, the top five injury related deaths in Utah were:

(Table 1)

1. Suicide
2. Poisoning (excludes suicides)
3. Unintentional Falls
4. Motor Vehicle Traffic Crashes
5. Unintentional Suffocation

*Rank is by the number of injury deaths in 2013

If a disease were killing our children at the rate unintentional injuries are, the public would be outraged and demand that this killer be stopped.

Former US Surgeon General, C Everett Koop
Utah Trends (Figure 1)
In one year in Utah,
- **1,857 Utahns died** from an injury or violence\(^1\)
- **12,280 Utahns were hospitalized** due to an injury or violence\(^2\)
- **153,372 Utahns were treated in an emergency department** due to an injury or violence\(^3\) That’s enough people to fill the Energy Solutions Arena **eight times**!\(^4\)

Age and Sex
Injuries are the leading cause of death for Utahns ages 1-54\(^1\). Males have a higher rate of injury deaths than females for every age group except children ages 1-4 (Figure 2)\(^1\).

Cost
Injuries and violence cost more than $621 million in hospitalization and emergency department charges\(^2,3\) in 2012.

That’s enough to buy **3,500 homes in Utah**!\(^5\)

Prevention Tips
Research shows that most injuries are predictable and preventable.

- If you or someone you love is suicidal, call for help. Help is available 24/7. If you live in Utah, call the Statewide CrisisLine at **801-587-3000** or call the National Suicide Prevention LifeLine at **1-800-273-TALK**.
- Never take a prescription pain medication that is not prescribed to you and never take it more often or in higher doses than prescribed.
- Dispose of all unused and expired prescription pain medications properly by following the guidelines at [www.useonlyasdirected.org](http://www.useonlyasdirected.org).
- Reduce hazards in the home that can lead to falls.
• Exercise to increase strength and improve balance to help prevent falls.

• Wear a seat belt every time you drive or ride in a car.

• Buckle kids in the back seat of a car using a child safety seat or booster seat until the child is eight years of age and at least 4 feet 9 inches tall.

• Wear a helmet while riding bicycles, motorcycles, scooters, OHVs/ATVs, snowmobiles, and during sporting activities.

• If you or someone you love is in a violent relationship, call for help. Help is available 24/7 by calling the Utah Domestic Violence Link Line at 1-800-897 LINK (5465) or the Rape & Sexual Assault Crisis Line at 1-888-421-1100.

• Keep your baby safe during sleep. Follow the safety tips at www.nichd.nih.gov/sids.

30 Years of Injury and Violence Prevention in Utah

The Utah Department of Health Violence and Injury Prevention Program (VIPP) has been striving to eliminate needless suffering and death from injuries and violence for more than 30 years.

VIPP collects data and provides prevention resources on child injury deaths, child abuse and maltreatment, child passenger safety (such as car and booster seats), dating and domestic violence, infant sleep related deaths, motor vehicle crashes, falls among older adults, prescription drug overdoses, rapes and sexual assaults, student injuries, suicides, teen driving, traumatic brain injuries, and violent deaths (such as homicides) in Utah.

VIPP is the lead agency for Safe Kids Utah and coordinates with Safe Kids local coalitions and other community programs to provide free or reduced cost car and booster seats for children.

VIPP contracts with Utah’s 12 local health departments to provide: car seat checks, free or reduced cost car and booster seats; programs and resources to improve seat belt use and teen driving behaviors; and other injury prevention activities.

VIPP funds Rape Crises and Prevention Centers to provide sexual assault primary prevention services.

VIPP also links individuals with traumatic brain injuries and their families to resources in their community and contracts with 501(c)(3) charitable clinics to provide rehabilitation services to individuals with spinal cord or traumatic brain injuries.

VIPP receives federal funding from the Centers for Disease Control and Prevention and Health Resources Services Administration. VIPP also receives a small amount state funding to coordinate the Traumatic Brain Injury Fund and Traumatic Spinal Cord and Brain Injury Rehabilitation Fund.
