

Utah Goals and Objectives  
Information System FY 2016

Goals	Objectives	Activities	Outcome
1. Implement new release	1. Successfully roll out release		
2. Automate the Enhancement Request form as a SharePoint request.	2.1. Add to list of requests in SharePoint 2.2. Develop system for SharePoint to retain enhancement requests for future reference.		Have not implemented the Enhancement request on SharePoint, but identified the need and implemented the Security Access form and Dual deletion form as Sharepoint requests.
3. Determine additional important changes to suggest for programming in the next release of VISION.	1.1 Determine additional needs 1.2 Write up enhancement forms 1.3 Work to promote the needed changes to the MP user group.		Change idea 53 was written up and approved for the fall release of the MPSC system.
4. Increase WIC staff understanding and use of system reports.	1.1 Provide additional training on reports. 1.2 Lily and Cheryl to continue to visit clinics.		Training has been provided as well as encouragement to use reports more frequently. Reports helpful to find ways to increase caseload are seeing the biggest increase in usage by local staff.
